WHY DO I NEED ETHICS PLUS WHEN I HAVE AN IN-HOUSE ACCOUNTING STAFF?

Hiring Ethics Plus does not mean you have to let go your own staff. We work closely with your existing team and help you leverage on:

Compliance and Controls: Accounting needs tight controls, and in most small companies this factor is compromised because they are financially unable to hire enough people to separate task assignments. We provide the needed segregation of duties, even if it means providing part-time personnel to you.

Best Accounting Practices: Hire the Pros! We offer accountants with the highest professional qualifications and experience, who become part of your accounting team.

Timely Closing & Reporting: Periodic books closing, accurate management, board and investor reporting.

Technical & Complex Issues: Transfer pricing, international tax issues, setting up offshore offices, M&As.

More Management Time: Our services will free-up your high-end time, allowing you to focus on strategic and management issues, thus yielding better financial results.

Impressing Potential Investors: Third-party control is highly encouraged by VC firms and angel investors. A third-party control is always more professional and reliable, and hence investors will value your decision to employ our services.
